

INSPIRING PEOPLE

< Current jobs

Infrastructure System Administrator

Entry

Professional

Location

Arnsberg

Professional Field

IT

In our IT department we work with Office 365, Azure, Powershell, Microsoft Teams, SharePoint and others. Your thinking and acting is service-oriented and you can imagine taking on the following tasks in a small team.

Your responsibilities

- Setup and support of Microsoft clients, mobile devices as well as our PBX with the corresponding terminal devices
- Monitoring and operation of our IT infrastructure in the client, server and network area, VMware and storage environment and backup
- Prioritisation and processing of incoming tickets
- Supervision of own projects and cooperation with external service providers and system houses
- Preparation of documentation on the IT landscape, fault reports and problem solutions

Your Profile

- Successfully completed training in IT or a comparable qualification
- Very good knowledge of the Microsoft server and client environment and Active Directory
- Very good knowledge of network architectures and their secure operation
- Good know-how in virtualization technologies such as VMware and Citrix
- Good knowledge of IT security (AV solutions, Firewall and Patch Management)
- Experience in Microsoft Office 365, SharePoint, SQL Server or Powershell is an advantage
- Good knowledge of English
- Strong communication skills combined with an independent way of working
- Enthusiasm for new technologies and concepts

We offer

You an interesting and expandable field of work in an internationally active company with flat hierarchies. Intensive training is a matter of course for us. Flexible working hours and the opportunity for further development are part of a good working day for us.
